Notes

General Instructions

Purpose of Form

Streaminz archives broadcasts that were made publicly available on Twitch, SOOP, CHZZK, or PandaLive. Broadcasters use Form SZ-102 to ask Streaminz to stop archiving their channels, to remove existing recordings, or both, under Terms of Service Article 12 and Privacy Policy Article 21.

You do not need to give a reason or prove a copyright. We only need to confirm that the channel is yours. If someone else's channel contains your copyrighted material, use Form SZ-100 instead. If you appear in someone else's broadcast, use Form SZ-103.

How To Submit

Fill in the form on screen, or print it and complete it by hand. Save it as a PDF, or scan the signed printout, and e-mail it with any attachments to **contact@streaminz.io**. Use the subject line **Form SZ-102: [your full name]** so the request reaches the right team. We reply from the same address with a case number; quote it in any follow-up.

Requests sent in another format are still reviewed, but they take longer because we may need to write back for missing details.

What Happens Next

- We e-mail you a case number, and a verification code if you checked box 8a.
- Once we confirm the channel, we stop archiving it and remove the content you asked about. We may restrict access while we review.
- If we cannot confirm the channel, we tell you what else we need.

Specific Instructions

Part II. Channel(s)

Copy each channel URL from the platform, for example https://www.twitch.tv/name.

Part III. Request

Box 4a stops new recordings. Boxes 4b and 4c remove what is already archived. To remove only some recordings, check box 4d and list them on line 5.

Part IV. Verification

A posted code is the fastest method. Post it exactly as sent, wait for our confirmation, then remove it.

Part V. Representative

Line 10 must be signed by the broadcaster. Agencies can attach an existing management agreement or power of attorney instead and check box 11.

Privacy Notice

Verchase, Ltd. uses the information on this form to verify and carry out your request and keeps a record of it so that archiving stays off. We do not share it with other users.
